**Feather and Wool Dusters!**  
There's no question about the everyday usefulness of a feather or wool duster. You can get along without one, but better with one. Save stooping, reaching and climbing, and will do some kinds of dusting better than anything else. The time was when the cost made them luxuries, our prices ought to make them necessities. After using one a while you would soon think of getting along without a broom as a duster. Our stock of dusters was bought close and we can afford to sell them in the same way. We have Turkey, Ostrich, Peacock and Wool.  
**W. H. STYER,**

From top to bottom, beginning to end, You'll know then where your money to spend.  
And that I'm yet, with the same good will, The "Fast" Rate Druggist.

**Beware of Ointments for Catarrh that Contain Mercury**  
as mercury will surely destroy the sense of smell and completely derange the whole system when entering through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by E. J. Cheney & Co. Testimonials free.

A very impressive service was held by the W. C. T. U. at the Infirmary Saturday afternoon. Flowers were distributed to each of the inmates, who number about one hundred. This service is looked forward to with much pleasure. As one by one of the unfortunates expressed their gratitude, the ladies felt more than repaid for their endeavors.  
Mr. and Mrs. Bell, who have the oversight of the institution, did their utmost to make the Union feel at home. They are well fitted for their positions of responsibility and with faithfulness execute the numerous duties devolving upon them. **ENTIRE LUNG REMOVED.**  
A Remarkable Operation on Consumptive is Performed in California.  
Perry Taylor, of Santa Ana, Cal., enjoys the rare distinction of being one of the few human beings from whom medical science has successfully removed an entire lung.  
The patient, who is 26 years of age, was stricken about four years ago with what he believed was tuberculosis or galloping consumption, and was treated accordingly by physicians he consulted.  
Fully 240 cysts were removed in one operation; then it was decided that the whole lung would have to come out. The operation was specially performed, the patient sewed up again with the great void within and nature allowed to take its kindly course. Taylor seems to have recovered his strength and is in the best of spirits.
